# Hype - Social circle for movie/shows recommendations

Product - Chrome Extension
Revenue Model - Targeted Ads / Sponsored Recommendations

We all have been in a situation when we keep scrolling our Netflix accounts to watch something but end up closing the tab because we are never able to find anything interesting.

To tackle the above we usually ask our friends for recommendations, don't we?

So, to solve above we have made the following browser extension:

👤 This show/movie is amazing..   **Recommend +**

+ Host Watch Party   **My Friends**   **My Watch List**   **Trending**
